

**Guido Persoone, Dr.Sc.** is emeritus Professor at the Ghent University in Belgium, where he was for 27 years the Director of the Laboratory for Environmental Toxicology.

He was secretary of the Interfaculty Center for the Study of Air, Water and Soil Pollution at the Ghent University from 1972 to 1986 and President of the Center for Environmental Sanitation at this University from 1986 till 1992.

Dr.Persoone has been a member of the Scientific Advisory Committee on Ecotoxicology of the European Union from 1981 to 1996 and was Chairman of this Committee from 1991 to 1995.

He has been visiting Professor at various universities in Europe, America, Africa and Asia and supervised the research of over 100 M.Sc.theses and about 25 Ph.D.theses in his laboratory.

His research interests focussed specifically on the development, validation and application of “stock culture-maintenance free” microbiotests, which were given the generic name «Toxkits». The low cost and user-friendly Toxkits are to date distributed worldwide through the company MicroBioTests Inc. which is a spin-off of his laboratory at the Ghent University

Dr.Persoone is the author of more than 150 scientific papers and reports, and he edited and co-edited a dozen books on aquaculture, pollution, environmental toxicology, hazard assessment and biological monitoring.

Prof.Persoone is scientific advisor of the company MicroBioTests Inc. in which he coordinates the Research and Development activities.
