1. DESCRIPTION

ERANET-PLUS is an Erasmus Mundus Partnership funded with support from the European Commission that aims to establish strong ties and mobility flows between Russian and European universities. The project, coordinated by the University of Barcelona, has been integrated by 11 European institutions, 9 Russian institutions and 4 associated partners. The key to this project is the successful cooperation and participation of all partners as a solid and coherent working group.

The total number of mobility flows within the program is 160. The programme will be divided into three eligible target groups: TG1, 65% (104 scholarships); TG2, 26% (41 scholarships); and TG3, 9% (15 scholarships).

The ERANET-PLUS project wishes to promote a flexible mobility scheme focusing primarily on the demand for specific subject areas. Furthermore, each institution that participates in the project also offers a wide range of courses to their students, not only English language courses. The diversity of languages, areas of study and cultures covered is a cornerstone of the project, as it provides a great degree of added value to the academic involvement of candidates.

The objective of these guidelines is to provide all candidates the necessary information for application submission. Project information is also included.

2. OBJECTIVES

The ERANET-MUNDUS project aims to establish strong ties and mobility flows between Russian and European universities. The principal objectives are:

- To create lasting associations between Russian HEIs and the European HEIs, providing each institution the experience of the European model and guidance on how to develop new standards.
- To construct a stable mobility between Europe and Russia and to develop a solid framework for future collaborations.
- To meet the disciplinary requirements of interdisciplinary research such as natural sciences, geography and geology, economics and social sciences, culture, language and philology, engineering and technology.
- To build bridges for scientists investigating Environmental Sustainability and Climate Change, to promote awareness of the problematic nature of these rapid changes, and to provide the support to develop new networks related to this issue.
- To create a bridge for an international cooperation in civil rights and citizenship, in sustainable development and in safety based on an more ecologically-motivated economy and society.

- To promote awareness of the cultural and linguistic diversity that will guarantee an intercultural education and find a remedy to the problematic language accreditation system in Russia.
- To train new generations of teachers, doctors, researchers, and professors in a wide range of languages and provide broader cultural awareness.

3. ELEGIBILITY OF APPLICANTS

Candidates should fill in and submit the official application available on the website before the official date of closure. The deadline for the presentation of applications is established according to the central European time. The application form has to be completed in English and some of the required documents must be translated into English as well. All applications will be analysed by the Home and Host institutions and revised by the Selection and Recognition Group members.

There are different conditions that candidates must fulfil in order to be eligible for the scholarship. Candidates must not only meet mobility level requirements but also nationality and other requirements that are presented:

European students

To be eligible, the candidate:

1. Must be a European undergraduate, master, doctorate or post-doctorate student referred to as “European students.”
2. Must be a national of one of the eligible European countries;
3. Must fulfil the set of requirements for either Target Group I or Target Group II (European students are not eligible for Target Group III classification):
 - Target Group 1 (TGI): students need to be registered at one of the European countries’ HEIs within the partnership at the time of submitting their application to the partnership.
 - Target Group 2 (TGII): students need either to be registered in an HEI (not included in the partnership) in any European country or to have obtained a university degree or equivalent from an HEI in any European country.
4. Must have sufficient knowledge of the language of the courses or of one of the languages currently spoken in the hosting countries.
5. Undergraduate students must have successfully completed at least one year of studies at their first higher education level institution.

Russian students

To be eligible, the candidate:

1. Must be a Russian undergraduate, master, doctorate or post-doctorate student referred to as “third-country students.”
2. Must be a national of Russia;
3. Must not have neither resided nor have carried out their main activity (studies, work, etc) for more than a total of 12 months over the last five years in any of the eligible European countries at the time of submitting their application to the partnership;
4. For Target Group 1 (TG I): students need to be registered at one of the Russian HEIs within the partnership at the time of submitting their application to the partnership. Undergraduate students must have successfully completed at least one year of studies in their home institution;
5. For Target Group 2 (TG II): students need either to be registered in an HEI (not included in the partnership) in Russia or have obtained a university degree (or the equivalent) from an institution in Russia;
6. For Target Group 3 (TG III): students need to be nationals of Russia and be part of a vulnerable target group;
7. Must have sufficient knowledge of the language of the courses or of one of the languages currently spoken in the hosting countries.

Academic and administrative staff

* Describe in detail the work plan you intend to develop at the host HEI:

(Max. 2500 characters)

Once the information is compiled the candidate should fill out the application form on the website. You must take into account that submitted applications cannot be modified. As a consequence, it is necessary to revise all details and make sure the documents are correctly uploaded (PDF or DOC format) before submitting the application.

After sending the online application, the coordination office will provide an application code. A digital certificate will be created, which also contains the date and time of the submission. This digital certificate will be sent to the candidate immediately after the online application submission. The applicant should save the TXT version of the application and print the digital report. The report contains, along with other information, the code connected to the application. This confirmation does not imply the acceptance of the applicant; it only confirms the submission of the application. Candidates should keep this paper copy throughout the entire process.

The applicant can only submit one application. If the candidate submits more than one application form, the informatics system will automatically consider only the first application submitted as valid.

The DEADLINE for the submission of the electronic application is 18 January, 2012 at 24.00 (GMT+0/ UTC+0). Only applications submitted by the deadline and in accordance with the requirements specified on the application form will be accepted. Applications sent by email or fax will not be accepted.

*All candidates must also take into account the specific requirements for each programme indicated in the “academic offer” section.

PASSPORT: All applicants must indicate their passport number on the application form and must include a photocopy of their passport. For cases in which the applicant does not have a passport, he/she can indicate their national identity number.

CURRICULUM VITAE: All applicants must include a CV (Europass model) with academic, professional, and personal information, skills, abilities, and other information applicable to the grant. You can create your CV in the following webpage:

http://europass.cedefop.europa.eu/europass/home/vernav/Europass+Documents/Europass+CV.csp?loc=en_GB

MOTIVATION STATEMENT: All applicants must write a motivation statement explaining his/her personal, academic and professional motivation. It is also important to indicate future plans, goals and personal/professional commitment. Indicate also if there is any special condition that must be taken into account.

LANGUAGE KNOWLEDGE: It is COMPULSORY to certify an advanced knowledge of the language in which the courses are led in the host institution (all host institutions have indicated language requirements). Without this advanced language knowledge, the application form will be rejected.

ACADEMIC RECORDS AND DIPLOMAS: All applicants must provide a scanned copy of their transcript (academic records with the average mark included) and their diploma certificate. (Master applicants must include their undergraduate diploma and academic records). However, undergraduate applicants are only required to have completed the first course of the degree in order to apply. All these documents must also be in English language (the documents can be issued in English, officially translated in English or translated in English by the candidate and validated by one partner institution).

LETTERS OF RECOMMENDATION: Recommendation letters will be considered. These letters should include contact details of the recommending person/institution, in order to verify them.

PROOF OF SPECIAL CONDITIONS: A certificate or other document that certifies the special condition is required. Both the original copy (in the original language) as well as an English translation must be provided.

LETTER OF SUPPORT OF THE HOST INSTITUTION: All doctorate, post-doctorate and staff candidates must contact the host institution (doctorate programme coordinator, research group director, director of the faculty department) in order to acquire a letter of support from the host institution. This document is COMPULSORY for the application form.

LETTER OF SUPPORT OF THE HOME INSTITUTION: ONLY staff candidates are required to include a letter of support from their home institution indicating the institutional interest and the candidate commitment with the institution.

OUTLINE OF THE RESEARCH/WORKING/TEACHING PLAN: All doctorate, post-doctorate and staff candidates must write an outline of their proposed research/work/teaching plan including the goals they hope to achieve during their mobility stay. This should include a timetable, mention of previous knowledge of the issue and possible outputs.

STUDY PLAN: template here of the document to be filled out.

INVITATION LETTER: each university has its own template for the invitation letter.

*All candidates must also take into account specific requirements indicated for each programme in the "academic offer" section.

Additional documents (optional):

PROOF OF SOCIAL AND OR ECONOMICAL DISADVANTAGE SITUATION: A certificate or other document that certifies the social and or economical disadvantaged situation. Both the original copy (in the original language) as well as an English translation must be provided. Example of documents to provide: tax declaration of the applicant or person/s that maintain the applicant and a personal declaration indicating these are the economical resources on which the applicant depends, NDFL-2 of the applicant or person/s that maintain the applicant, proof of being a grantee student by the government, accreditation of disability.

9. EVALUATION AND SELECTION

All received and valid applications shall be included as read-only documents in a protected database. All legal requirements shall be respected concerning personal data manipulation; confidentiality will always be maintained. The database will only be accessed and revised by authorized personnel with access codes in the home and host institutions. The coordination team, technical experts which will participate in the evaluation process and the members of the Selection and Recognition Group will also have access.

Before proceeding to the technical/scientific evaluation of the applications, the contact person and/or staff responsible for the implementation of the project in the home institution will verify the eligibility of the candidate, according to the eligibility criteria established, and invalidate those who do not satisfy the criteria.

The applications which comply with the evaluation demands in technical terms will be considered and assessed by the home institution (TG1) and host institution selected by the candidate. With this assessment a candidate's ranking will be elaborated based on academic merit, personal and professional motivation, academic projection, strategic importance and institutional interest of the academic area. The specific distribution of criteria importance is available in the "selection criteria" of the web page.

Apart from this ranking, the Selection and Recognition Group will be in charge of the evaluation of the list of pre-selected candidates issued by the host and home institutions and will establish the distribution of grants according to the selection criteria. Selection procedure will also take into account economic, geographic or any other disadvantages. The promotion of equal opportunities, gender balance and social equity will be taken into account in the percentage of candidates from the different Target Groups.

Furthermore, the balance of the mobility flows, seeking to achieve the maximum participation of each partner both in sending and receiving candidates will also be taken into account. If necessary, extra points will be awarded to candidates requesting a place at a partner institution with lower demand.

After the final selection of the applicants the coordinating institution will send to the home and host institution a list of the selected scholarship holders that will participate in ERANET-PLUS. The coordinating institution will also inform all applicants by email about the selection results and will publish the final list on the consortium website.
