

Public lectures on oncolytic viruses

Event date: 21-22 november 2012, 14:00

Event place: [пр. Свободный, 79, стр. 4](#), ауд. 43-12

Institute of Fundamental Biology and Biotechnology, SibFU, will host public lectures on oncolytic viruses by Professor Sergey Netesov from Novosibirsk State University and his team members. The lectures will be from 21 to 22 November 2012.

21 November 2012:

1. Applications for living viruses.
Speaker: S. Netesov;
2. Oncolytic viruses: history and general description
Speaker: S. Netesov;
3. Oncolytic paroviruses
Speaker: V. Loktev;
4. Oncolytic adenoviruses
Speaker: S. Netesov;
5. Treatment for gliomas
Speakers: N. Gubanova and I. Razumov.

22 November 2012

1. Oncolytic poxviruses
Speaker: G. Kochneva;
2. Oncolytic herpes viruses
Speaker: G. Kochneva;
3. Oncolytic enteroviruses
Speaker: N. Tikunova;
4. Oncolytic rotaviruses
Speaker: N. Tikunova;
5. Preclinical research and clinical trials for anticancer adenovirus cancerolysin preparation: how to make oncolytic viruses more effective
Speaker: V. Svyatchenko;
6. How to develop and use oncolytic viruses: current trends
Speaker: S. Netesov
