

# International Summer School on global climate change at Siberian Federal University

**Event date:** 1–20 august 2013

Siberian Federal University is happy to invite young researchers, graduate and undergraduate students to attend First International Summer School 'Global Climate Change: environment, permafrost, technologies and social development' from 1 to 20 August 2013.

The school aims at enhancing the attendees' understanding of their fields of research and applying their team work skills to presenting their findings.

Summer School delegates will be introduced to a range of research topics: Earth sciences and environmental studies, hydrology and plant physiology, ecology and landscape studies. The lectures will be delivered by leading faculty members from Siberian Federal University, Moscow State University and researchers from the Russian Academy of Sciences (Siberian Branch). The Summer School will feature workshops, discussions and research projects.

Application deadline: 26 March 2013.
