

SibFU's professor writes the best research monograph

Professor Vitaly Minin from the Department of Transportation and Technological Machinery, Polytechnic Institute, SibFU, has become an awardee of the National Competition 'Best Research Monograph 2012'. His book 'Increasing Efficiency of Compact Loaders' was one of the best in the 'Engineering' nomination.

This is the eleventh competition held by the Foundation of National Education. Experts evaluated applications from 4983 researchers and 1267 universities/research institutes.

This year's competition has an international status with applications from the UK, Germany, France, Italy, Korea, Ukraine, Belorussia, Armenia, Kazakhstan. According to Vitaly Minin, this has enhanced the competition's reputation.

*«The book has been published by SibFU Press and it is used for teaching undergraduates and master's students from the Department of Transportation and Technological Machinery, Polytechnic Institute, SibFU», — **Vitaly Minin** said.*
