

# V International Congress and Exhibition 'Non-Ferrous Metals'

**Event date:** 3-6 september 2013

Krasnoyarsk will host V International Congress and Exhibition 'Non-Ferrous Metals' from 3 to 6 September 2013.

We invite research on the following topics:

- Minerals and raw materials for precious metals;
- Technologies for extracting minerals;
- Producing alumina and bauxites;
- Aluminium production;
- Rare and precious metals;
- Producing precious metals;
- Carbon and carbon materials;
- Non-ferrous metal casting and alloys;
- Metal forming and heat treatment;
- Management, finance and project management in mining and metallurgy;
- Current issues in engineering education.

Keynoting on 3 September 2013 will be from researchers from Canada, New Zealand, Norway.

The congress includes round tables on the following topics:

- Updating professional education;
- Collaboration in studying mineral resources (in association with Helmholtz Association and Siberian Federal University);
- Innovative technologies in metallurgy and machine engineering.
