

4th Biotechnology of New Materials - Environment - Quality of Life International Conference

Event date: 10-14 october 2021

Event place: Siberian Federal University

From 10 to 14 October 2021, the IV International Conference on Biotechnology of New Materials — Environment — Quality of Life will be held at Siberian Federal University.

The main topics of the conference are biotechnology, polymers and biopolymers, new materials and their applications. These themes are at the intersection of several scientific fields such as biology, chemistry, toxicology, nanotechnology, biotechnology, biomedicine and environmental protection.

Famous scientists from India, Japan, the USA, Brazil, France, the Netherlands, Germany will take part in the conference.

The Conference program will include a series of talks by leading scientists (40 min); scientific oral presentations (20 min) and poster session for scientific youth.

To participate in the conference, please register [on the conference website](#).

By the beginning of the conference, it is planned to publish a collection of conference materials.

The selection of papers will be carried out by the program committee taking into account the quality of the materials and their relevance to the topic of the conference. To submit your paper, visit the conference website.

Registration deadline: 30 August 2021

Submission deadline: 30 August 2021
