

Results of Best SibFU Student 2022 competition

The winners among the participating 100 students from 21 schools in the traditional competition **Best SibFU Student 2022** were announced. The competition had held 5 challenges and announced winners in 6 categories.

The 2022 university challenge included Total Debates, followed by Storytelling Self-Presentation and profession-oriented challenges. Stand up, manager! has become this year's groundbreaking challenge for leaders of student associations. Case-Project-Final became a team challenge of strength and smartness and completed the competition.

- 2nd place — Polina Levagina, third-year student, School of Fundamental Biology and Biotechnology;
- 3d place — Ekaterina Pozdniakova, third-year student, School of Education, Psychology and Sociology.

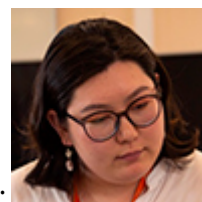

Darina Nikitina, School for the Humanities, the Athlete of the Year: *“This competition is about versatile, new and talented people who are not limited to sports. The competition proved that a talented person is a bright one, striving for achievements in all areas. Participation and collaboration with successful students have already been an achievement for me”.*

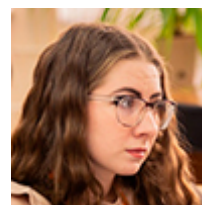

Iuliia Sudiarova, School of Space and Information Technologies, Creative Person of the Year: *“I liked the fact that not only creative achievements were required. The participants had to demonstrate a broad outlook and non-trivial skills. Within the stage among the participants of my School, the competition was a standard self-presentation, but within the university stage, we were already debating with each other, building arguments based on knowledge, facts and our own life experience. Don't be afraid, give it a shot and believe in yourself!”*

Azhar Alamanova, School of Fundamental Biology and Biotechnology, International Student of the Year: *“Participation in the competition was one of the most significant events for me. This competition is an excellent platform not only to present yourself, but also to meet other talented and cool guys, hear their stories, exchange experiences. Now I feel very inspired and revived”.*

Arina Lyspakova, Khakass Technical University, Active Member of the Year laureate: *“I am very glad that I was able to take part in such a large-scale competition. Applying was nerve-wracking as I didn't know what to expect. But the path turned out to be very interesting, because exciting challenges were waiting for me. Despite remote participation, I managed to go through all the stages and get 2nd place. I would like to express gratitude for the opportunity given to students from SibFU branches to join the competition”.*

Next year, Siberian Federal University will hold the competition with new challenges and unique participants.
