

# Agreement signed with En+ Group to train nuclear physicists

**Event date:** 17 february 2012

Siberian Federal University and En+ signed an agreement on training nuclear physicists. The agreement implies developing curricula and a system of internships. Students will also get additional skills to prepare them for addressing the company's tasks.

**Artem Volynets**, En+ Group's CEO explained that the company was investing in a nuclear reactor of a closed cycle to become a safe energy source for remote Russian territories. According to company's estimates, the reactor might be ready by 2017. The company needs nuclear physicists for this project.

The agreement was signed by Natalia Gafurova, Vice-Rector - Academic Affairs: *«The agreement is about a single direction of studies and we consider it as a pilot project to model other interactions with En+ Group»*.
